**Software Engineer | Data Analyst | Data Scientist | Web Developer**

## Personal Information

**Phone:** +41 76 778 84 26 | **Email:** firstname.lastname@gmail.com

**LinkedIn:** linkedin.com/in/Name | **GitHub:** github.com/Name

**Location:** Lengnau, Switzerland

## Professional Summary

Versatile and goal-oriented Software Engineer with distinct data science, automation, and front-end development experience. I am most productive in high-energy and diverse settings, always seeking to develop meaningful and user-centered solutions. I consider myself receptive to learning and change by constantly taking on new skills and remaining up to date with developments in technology. My collective mindset and approach to constructive critique prove useful in both group and personal responsibilities.

## Core Competencies

- HTML / CSS / JavaScript / MUI / React / PHP
- Python / SQL / NoSQL / KNIME
- Power Apps / Power Automate / Power BI
- MS Office / VBA / Excel Macros
- Illustrator / Figma / Adobe Suite
- Agile / Scrum / Cybersecurity Awareness
- Azure AD (Security Groups), SharePoint Permissions, IAM (basic)

## Work Experience

**Graduate Engineer | Thermo Fisher Scientific**

Sep 2024 – Aug 2025 | Lengnau, Switzerland

- Supported development of a GxP-compliant company database.
- Led the development of a Power Apps solution used by 200+ employees for KPI tracking and action management.
- Automated Excel workflows using Power Automate, reducing reporting time and manual effort.
- Collaborated cross-functionally with QA and production teams to improve digital processes.

**Frontend Developer (Internship) | Allianz Technology SE**

Aug 2022 – Jan 2023 | Remote, Germany

- Designed UI in Figma and Adobe Illustrator for internal tools.
- Developed clean and responsive frontend code using JavaScript and Material UI.
- Redesigned the logo for Allianz Cyber Defence Centre.

**Web Designer and Developer | ParkShare**

Feb 2021 – Oct 2021 | Aarhus, Denmark

- Created and implemented ~70% of the company website.
- Built backend and frontend components using HTML, CSS, JavaScript, PHP, and MySQL.
- Designed visual assets and mockups in Figma and Adobe Illustrator.
- Enhanced website usability and accessibility through testing and iteration.
- Contributed to sprint planning and Agile team stand-ups.
